

Recreational Vehicle (RV) Parking Guidelines

Hi, we are happy to have RV Parking available for you at the Queen Anne's 4H Fairground Trial Site. As you know, electrical, water, dumping or sewer services are not provided at this site. This is an arrangement for overnight RV parking only. Please be aware that you are parking in the facility's parking lot where competition nose work searches may be held; therefore, we are requiring that you adhere to some guidelines that will help assure the integrity of the event. It is our hope that once you are parked you will not be required, however, if the Certifying Official request a move or if the search dictate a move, you may be asked to relocate your RV. **If these guidelines are not followed, you may be asked to leave the fairgrounds.**

We need to keep the exterior as clean as possible. Dogs cannot urinate or defecate in potential exterior hide sites. You will need to potty your dogs in the spot designated for competing dogs even after trial hours. This would mean that dogs are on leash, so they do not wander into potential search areas. There may also be other competitors staying overnight and we cannot allow open play time or meet and greets. NACSW rules of conduct should be maintained after hours. Your understanding and support of your fellow competitors is greatly appreciated.

It may be tempting to walk the trial site. Again, since we do not know where hides may be located, or we may later need to re-designate a spot as a search area, we are asking that you stay within the labeled areas on the attached map. When you walk or exercise your dogs after trial hours, please feel free to do so in the parking lot/designated area.

If you need to move your RV during trial times (leaving during registration times, end of day etc.) please let us know so we can help with this process and assure the safety of competitors and their dogs.

All trash should be placed in the facilities dumpster.

I have read the guidelines for RV parking and understand the content.
